OBJECTIVE

Seeking an internship to apply what I have learned and to gain relevant industry experiences.

EDUCATION

Bachelor of Science in Computer Science   Expected Graduation May 2024
TEXAS A&M UNIVERSITY, College Station, TX
GPA: 3.6/4.0
Courses: Machine Learning, Programming Studio, Analysis of Algorithms, Intro to Computer Systems.
Honors & Awards: Computer Science Honors
Clubs: TAMU RoboMasters

EXPERIENCES

Simulation Team Lead, Texas A&M University RoboMasters   January 2022 – May 2022
- Implemented a simulation environment using Unity.
- Integrated Computer Vision software into the simulation environment.
- Communicated current simulation issues with team members and provided practical solutions.

Lifeguard, Austin Parks and Recreation   Summer 2018, Summer 2021
- Promoted water safe habits to patrons.
- Proactively search for and prevent life-threatening dangers.
- Coordinated response to emergencies.

ACTIVITIES

Personal Projects: https://github.com/MrPineapple065

- Basic machine learning algorithms from Udemy.

- Java code for Chess and Minesweeper games.

School code repositories: https://github.com/lai-huy

- Data structures and algorithms
- Works on Simulation with TAMU RoboMasters

Cybersecurity Summer Camp, University of Texas at Austin   Summer 2018

- Exposure to real-world tools and techniques.
- Knowledge gained on vulnerabilities and countermeasures for current security and privacy.
